Fellowes®

Volo®

OUR CREDO

We believe that where we work has a profound impact on how we work. After all, how a space looks, functions, and feels is directly related to its effectiveness.

Modular Walls are no exception, which is why Volo's expansive offering fulfills our commitment to giving teams more control than ever with added flexibility to make smart adjustments amidst changing needs - ultimately creating spaces for impactful and meaningful work.

Volo Walls

The Most Comprehensive Modular Wall Offering

With its unitized, modular construction and extensive design options Volo® offers applications for every need and end-to-end service. It is a fast, flexible and sustainable approach to interior architectural space planning.

Volo Full Portfolio

Fellowes is the only brand with a full portfolio of wall systems for any project shape or size.

Frameless

Elegant office front walls that fulfill your space needs and aesthetics

- Office and conference room fronts
- Frameless ½" Glass (stick built)
- Preferred reduced detailed trims
- Frameless & Framed door options
- Simple and affordable

Prefabricated Frame & Tile

Sophisticated, pre-assembled walls with functional simplicity to move with changing workspaces

- Pre-assembled ¼" Glass panels
- Pre-assembled Glass & Solid Panels
- Insert and Outsert Tile Options
- Base Electric and data

Monolithic

Pre-assembled gypsum-based monolithic panels designed to replace drywall

- Pre-assembled Solid Panels
- Vinyl or Fabric finishes
- Easy power and data management
- Budget Drywall replacement

Smart Glass

Provides instant privacy by switching from translucent to controlled transparency in just 3 milliseconds.

The perfect solution for interior glass walls in offices, hospitals, and retail spaces.

Visualize Your Volo

Evolve or reconfigure your space easily.

VOLO MONOLITHIC PANELS are available in 24" and 30" widths and can be specified from 72" up to 120" high in 1/4" increments. Optional glass stackers allow a maximum height of 12'. Any Fellowes fabric or vinyl can be specified on Volo Monolithic Panels.

PANEL SEGMENTATION allows up to 7 Tiles of identical or varied materials on each side of the panel. Outsert and Insert Tiles can blend for maximum aesthetic and functional versatility. Different tile configurations can be specified for each side of a panel.

PANEL FRAMES can be specified from 88" up to 120" high in ½" increments, and from 6" to 48" wide in ⅛" increments. Frame elements are available in any of Fellowes standard systems paint colors or in an anodized aluminum finish.

Smarter for the planet, smarter for your business

Less Waste

Modular walls are constructed with up to 90% less waste than traditionally-framed walls. The majority of Volo components are made from aluminum, MDF, steel and glass, resulting in a wall system that is recyclable.

*Less Cost**

Designed to be rearranged, reconfigured, and reused for years to come. Capturing asset depreciation is a powerful cost-saving tool that can greatly reduce a business' tax obligations.

*Versus Traditional Construction.

Less Hassle

Volo is designed and engineered to perform and is backed by an industry-leading lifetime warranty.

LW Lifetime Warranty
