CULTURE AT WORK

In molti luoghi di lavoro si parla di cultura organizzativa, la quale definisce e caratterizza le qualità di un ambiente di lavoro. La cultura è dunque un potente elemento che plasma il luogo di lavoro, il modo di lavorare, le relazioni interpersonali e i processi organizzativi.

In many workplaces we talk about organisational culture, which defines and characterises the qualities of a working environment. Culture is therefore a powerful element that shapes the workplace, the way of working, interpersonal relations and organisational processes.

Dans de nombreuses entreprises, nous parlons de culture organisationnelle, qui définit et caractérise les qualités d’un environnement de travail. La culture est donc un élément puissant qui façonne le lieu de travail, la manière de travailler, les relations interpersonnelles et les processus organisationnels.
