SERVICE

More than **40 years ago**, Waldmann established the free-standing luminaires as a workplace lighting solution.

Waldmann free-standing luminaires provide **glare-free, low-shadow light** directly at the workstation.

Thanks to **plug-and-play via floor outlets**, existing offices can be upgraded quickly and cost-effectively — **without any structural modifications**.

ENGAGED PEOPLE

DAYLIGHT SIMULATION – LIGHT ALIGNED WITH HUMAN BIOLOGY

More than **25 years ago**, Waldmann pioneered **daylight simulation**, supporting the human **circadian rhythm**.

What was visionary back then is now scientifically proven:

Numerous studies show that dynamic, daylight-oriented lighting **enhances well-being, focus, and performance**.

ENGAGED PEOPLE

Waldmann pioneered **LTX**, combining **light and information** into an intelligent lighting system.

LTX enables luminaires to **communicate with each other and with the building**, creating a smart, responsive lighting environment.

BEST WORKSPACE

SUPPORTING EMPLOYEE SATISFACTION

LTX supports office management by providing valuable insights into **how spaces are used and experienced**.

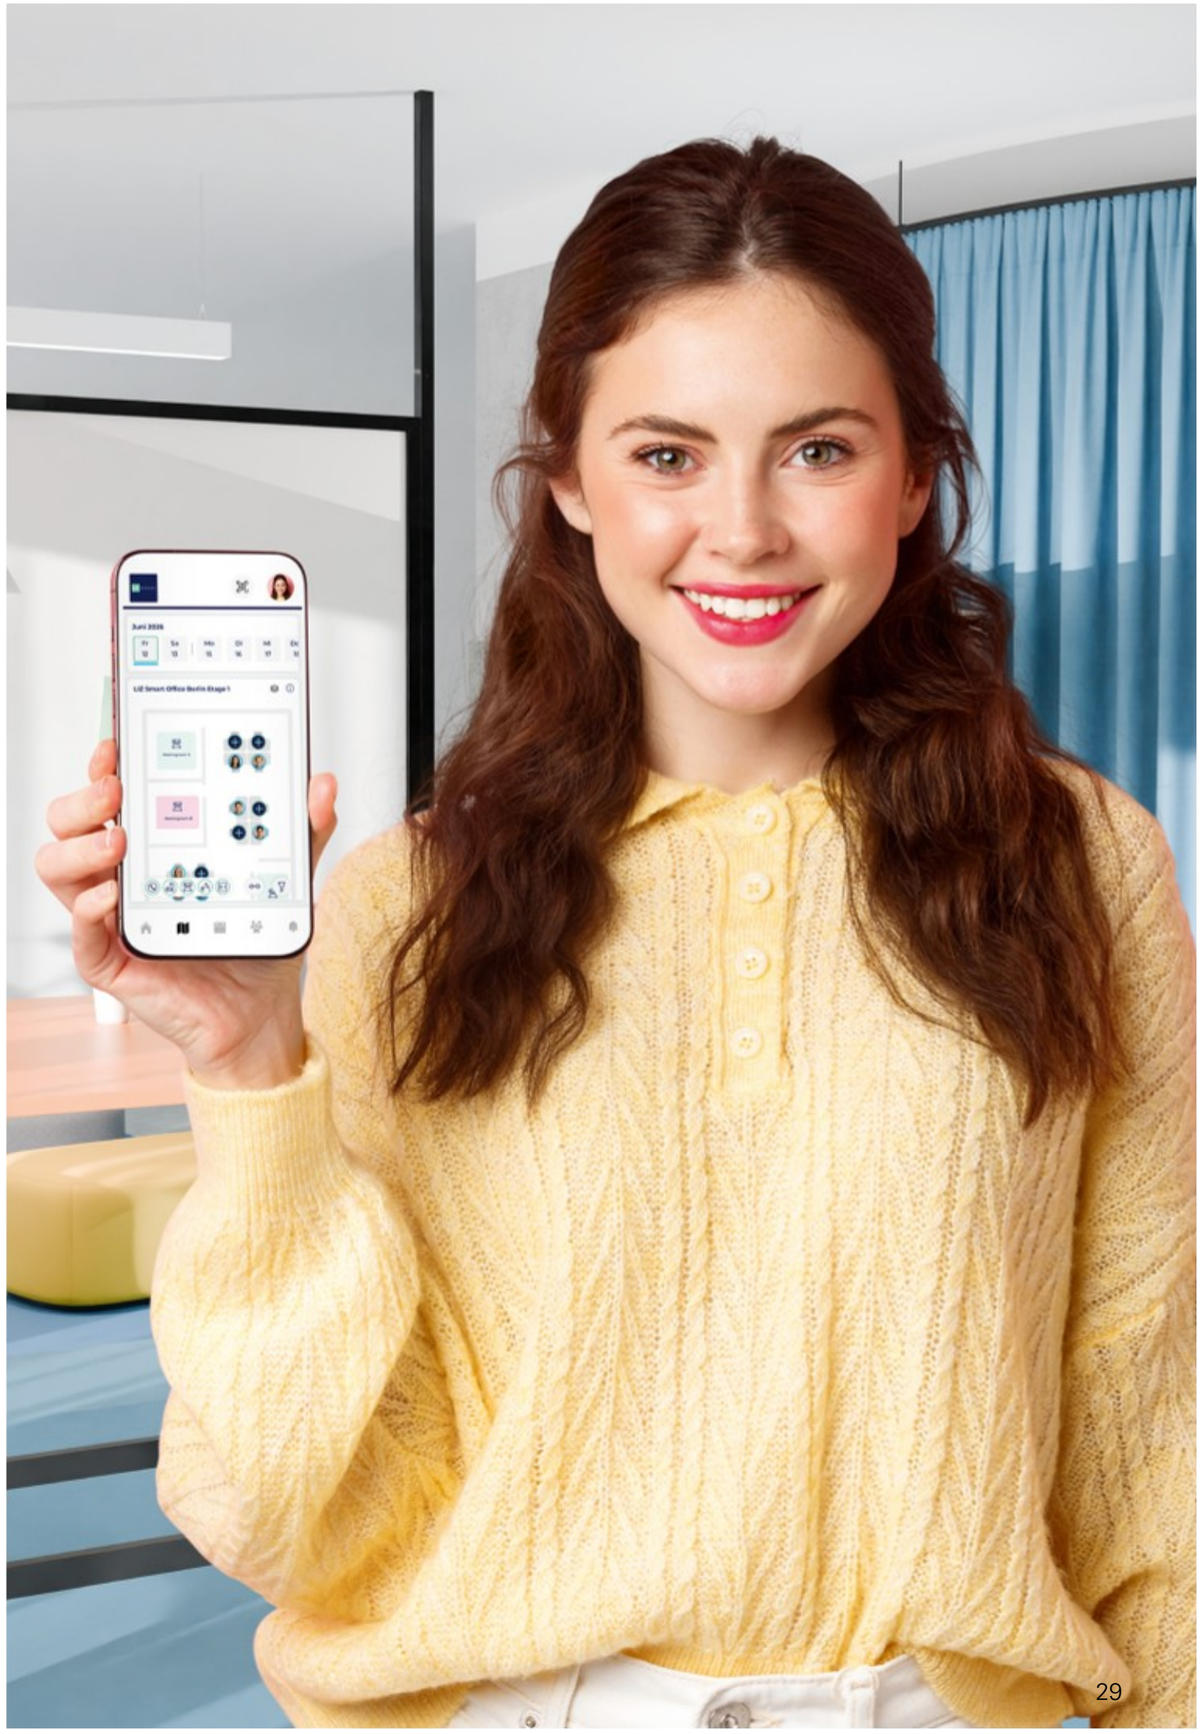

By making these patterns visible, LTX helps define **what an ideal office looks like** and how workplace design can actively support employee satisfaction and performance.

FINDING YOUR PERFECT WORKSPACE

By making the office more flexible and transparent, LTX helps create workplaces that feel as **free and self-determined as home office**, while bringing people together where **creativity, collaboration, and performance** truly happen.

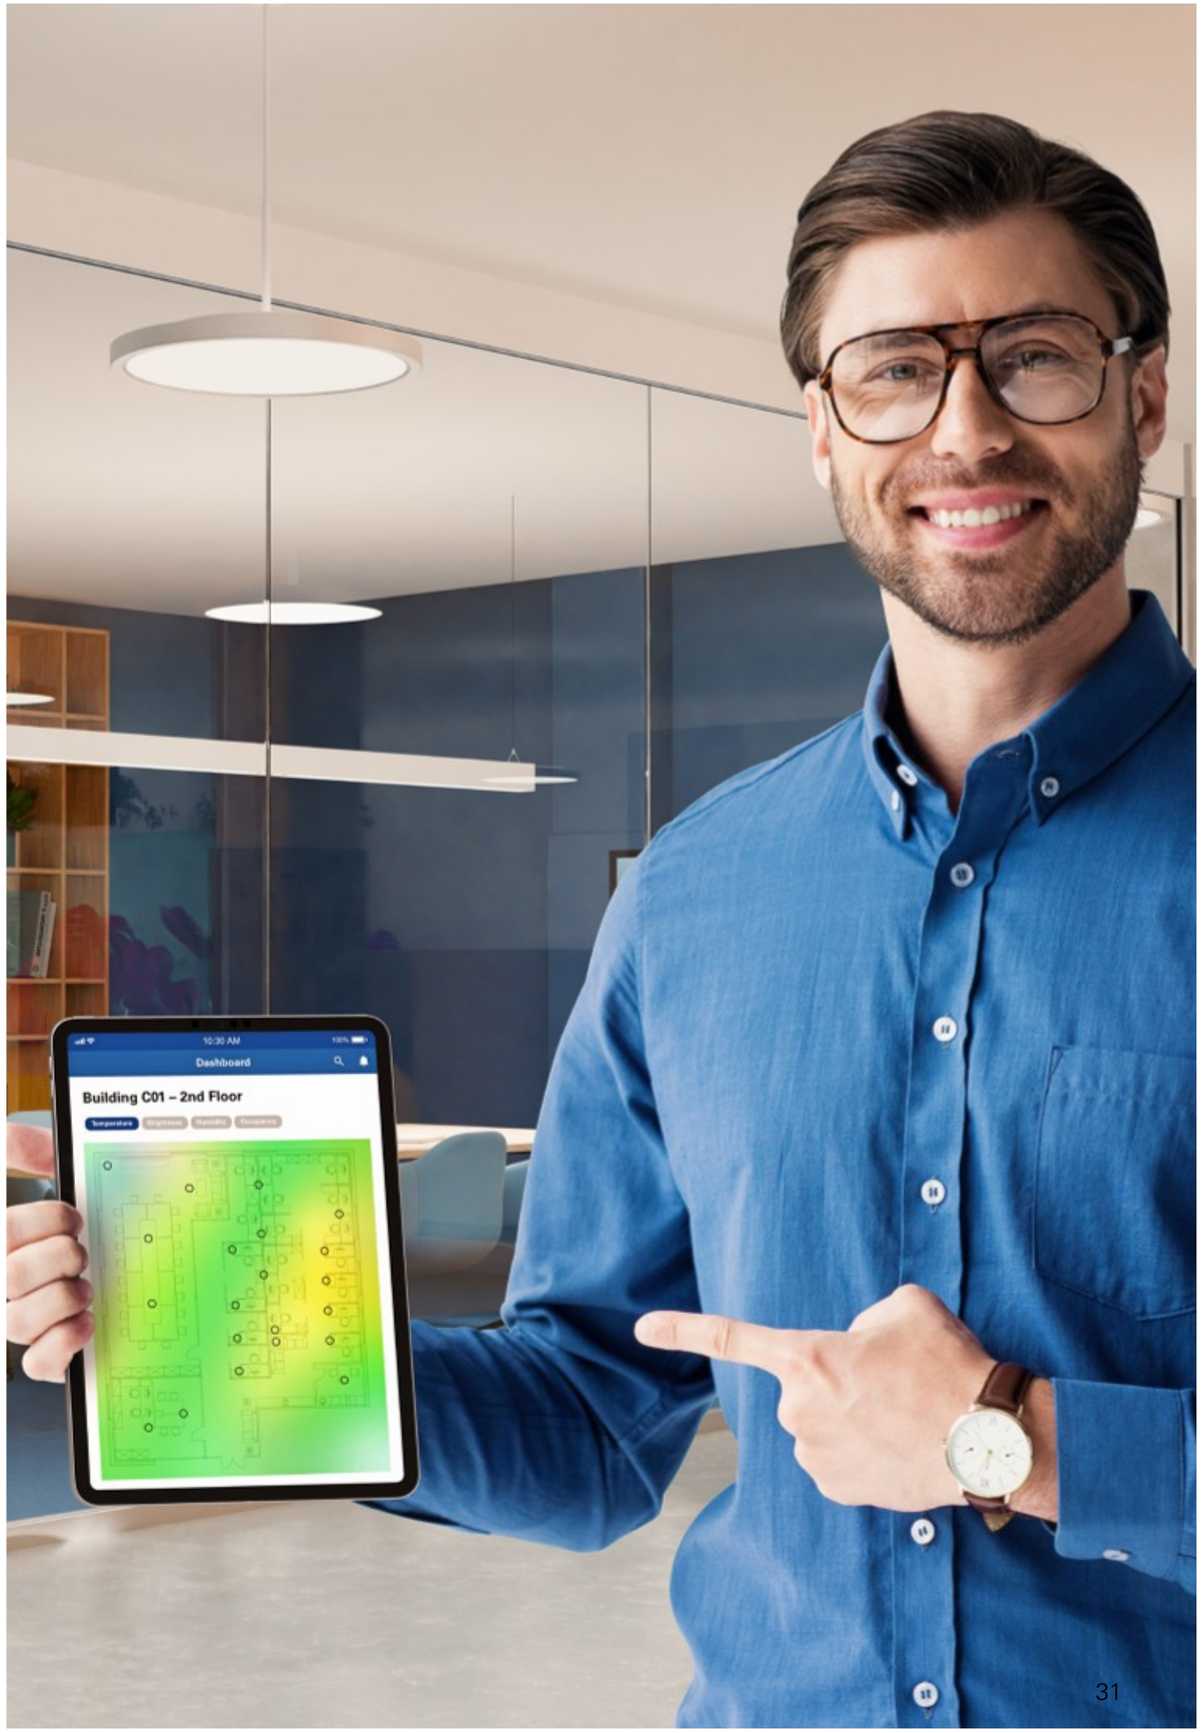

ENERGY-EFFICIENT BUILDING

MOST EFFICIENT ASSET MANAGEMENT

LTX provides transparency on **energy consumption, utilisation and building performance**, helping to optimise the building's **energy efficiency**.
